## DEFINITIONS

<b>SERVICE:</b>	Is the pipe between the water main and the boundary.
<b>MULTI RESIDENTIAL:</b>	A Service which is connected to more than one meter.
<b>NON RESIDENTIAL:</b>	A Service which is provided for commercial purposes.
<b>FIRE SERVICE:</b>	A Service which is solely provided for firefighting use.

## CONDITIONS OF SERVICE CONNECTIONS

1. Meters will be positioned above the normal ground surface unless the Aqwest Manager Water Services deems otherwise.
2. Stand pipe with hose cock must be in place not less than one metre from the front boundary at point of connection.
3. Water services are provided for domestic and commercial purposes only and not for garden/lawn reticulation.
4. Service connection will only be provided within 1.2 metres of the side boundary and not on the same side as the vehicle crossover.
5. If services are not able to be installed under normal working conditions, extra charges as considered necessary will be calculated and paid by the applicant.

## NOTES ON NON-RESIDENTIAL WATER SERVICES

The following important points shall be noted and understood in full with regard to the provision of any non-residential water service from Aqwest's reticulated water supply system:

All Non-Residential services shall require a level of Backflow Prevention, determined by Appendix E, Table E1 to E3, to be installed by a licensed plumber as outlined in AS/NZS 3500.1.2.2010 *National Plumbing & Drainage Code*. All Backflow Prevention Devices shall be tested annually by a licensed plumber and compliance certificates sent to Aqwest.

1. Section 77, Clause 1 of the Water Services Act 2012 states "A licensee may interrupt, suspend or restrict the provision of a water service to the extent to which it is necessary, in the licensee's opinion, to do so because of an accident, emergency, potential danger or other unavoidable cause, or for the purposes of maintenance and repair". If this impacts on the domestic drinking services to any property, it is the property owner's responsibility to make provision to suit their requirements.
2. In accordance with our Operating Licence for a standard water supply, Aqwest is required to supply a flow rate of 20 litres per minute at 15 metres minimum static pressure (150 kilopascals).
3. Aqwest does not guarantee and is under no obligation to maintain constant pressures for the life of the service, and it is the Owner's responsibility to check their service installation and ongoing for the life of the service to ensure that it meets their demand.
4. Aqwest's systems are undergoing constant change and variation to operational settings, and for this reason premises with specific requirements should consult their suitably appointed hydraulics consultant.
5. **Acknowledgment**

The owner/applicant acknowledges that the owner/applicant has made his own independent enquiries with regard to all matters relevant to the provision of the water service, in order to determine the suitability of the service and the owner/applicant acknowledges that the owner/applicant has not sought nor been given any advice with regard to the suitability of the service from Aqwest and that Aqwest have not expressly or impliedly represented or warranted to the owner/applicant that the service is suitable or adequate for the purposes intended by the owner/applicant and that all warranties (if any) as to suitability and adequacy thereof implied by law are expressly negated and the owner/applicant further acknowledges that the owner/applicant has himself specified to Aqwest the service which is required by the owner/applicant, based upon the owner/applicant's own independent enquiries and investigations.

6. **Release, Discharge and Indemnity**

The owner/applicant shall use the service at the owner/applicant's own risk and the owner/applicant hereby released Aqwest to the full extent provided by law, including Aqwest's servants and contractors from all claims and demands of every kind resulting from any damages to property or injury to person as a consequence of any failure of or deficiency or fault with the service and the owner/applicant hereby indemnifies and shall keep Aqwest indemnified in respect of all and any such claims, liability, costs and expenses without limitation.
