

JOB APPLICATION PACKAGE – ASSET DELIVERY COORDINATOR

About Aqwest

AQWEST is the trading name of the Bunbury Water Corporation

The Bunbury Water Board was formed in 1905 to obtain, treat and distribute water and has served the people of Bunbury for over 100 years. The move away from the historic Bunbury Water Board and the evolution of Aqwest occurred as part of the restructuring process in 1996/97.

Despite the updated image and streamlined structure, the tradition of delivering quality water at reasonable cost to the people of Bunbury continues with Aqwest. We use the latest technology and engineering know-how to produce and deliver high quality water for the expanding Bunbury community.

At Aqwest, we want our people to be creative, to collaborate and have the courage to make decisions, plus have the know-how and initiative to tackle every challenge. Our strength is our people, our diversity, and a work environment where everyone is treated with respect and empowered to grow and succeed in their roles.

Location, Location, Location!

Bunbury is located 175km south of Perth on the beautiful South West coast of Western Australia and has an enviable lifestyle, fantastic climate, nearby wineries, outstanding restaurants and is surrounded by water on three sides, including glorious beaches. It has all the modern entertainment and recreational facilities you would expect in a bustling and growing city. Bunbury has a rich pool of community and culturally diverse activities and is an exciting place to live and work.

How to Apply

Preparing your Application

Aqwest is an equal opportunity employer. All applications for a position will be assessed against the Selection Criteria, shown in the position description.

Only those applicants who specifically address the selection criteria for the position will be considered for an interview.

Your application should include the following documents:

Addressing the Selection Criteria	<p>Please address each element of selection criteria listed in the Position Description as attached. No more than 1 paragraph per criteria.</p> <p>The key is to:</p> <ul style="list-style-type: none"> • Demonstrate capability by providing evidence of how you meet the selection criteria. • Provide specific and relevant details. • Where possible, include an indicator of success or a result.
Covering Letter	<p>The covering letter gives you the opportunity to introduce yourself. Include brief information about your experience and skills. (1 page maximum)</p>
Comprehensive Curriculum Vitae	<p>Your resume (or curriculum vitae) should include your personal details, all relevant work history and education, training courses, qualifications and professional memberships.</p>

When listing your relevant work history, you should start with the current or recent position. You should also include dates/period of employment and duties and responsibilities for each position.

Formal Qualifications

Photocopies of relevant qualification(s) or academic records should be attached to your application. Please do not submit originals.

Referees

You will be requested to provide referee contact details if you are shortlisted for interview.

Applications are to be submitted by email to IPS Management Consultants at careers@ipsau.com.au

Any questions can be directed to Jan Ferraz at IPS Management Consultants:
jan.ferraz@ipsau.com.au, 0439 932 308.

Our Selection Process

Fairness and Equity

Aqwest seeks to build a diverse workforce and is committed to ensuring that our recruitment and selection process is always fair and equitable.

Selection for Interviews

A panel will shortlist applicants for interview. This process may take up to two weeks after the closing date.

If you are selected for an interview, Aqwest will contact you to organise a mutually convenient time to be interviewed. All interview questions will be based on the selection criteria for the position.

During the Interview

Each applicant will be interviewed by the same interview panel and assessed in the same manner.

Interview Outcomes

All candidates will be contacted within a few weeks of the interview.

Position Objective
<ul style="list-style-type: none">  Ensure capital projects are delivered safely in accordance with relevant legislation, regulations, standards, company policies and procedures.  Project manage capital projects to create new infrastructure assets that satisfy the operational objectives of stakeholders on time, to budget, and within technical and OSH, Environmental and Quality standards.  Work independently on multiple projects and engage with multiple internal and external stakeholders and customers.  Provide advice to stakeholders on the application of project management and contract administration processes.  Create and support an efficient, one team approach and structure aligned to the Aqwest corporate vision: <p><i>“To be an independent, viable, and competitive water utility in the Western Australian water industry”.</i></p>
In this role you will:

-  Act as technical lead for procurement of asset delivery services i.e. tender evaluation panels.
-  Coordinate multi-functional project teams through the scoping, design, construction, commissioning and transfer of new assets and close out of engineering projects ensuring lessons learnt are incorporated into the delivery of projects.
-  Deliver projects in accordance with AQWEST's Integrated Management System.
-  Monitor, control, review and forecast projects outcomes including time, cost and quality.
-  Ensure project risks are captured, mitigation measures are in place and monitor and report on their effectiveness ensuring that issues are dealt with in a timely manner.
-  Prepare project management documentation in accordance with AQWEST's Integrated Management System Framework.
-  Liaise with public authorities, contractors, consultants and customers.
-  Ensure project engineering and design complies with technical and functional specification.
-  Negotiate, establish and manage contracts to procure services, equipment and works to achieve project objectives.
-  Act for and on behalf of the Principal on consultancy and minor/major contracts.
-  Assess and approve progress claims for payment and ensure contractor performance reports on time, cost, OHS, quality and environment are completed.
-  Ensure health, safety, environmental and quality risks are identified and assessed for significance in all aspects of the project and that controls are implemented and monitored throughout the project.
-  Ensure the application of the relevant OHS procedures in the selection and management of contractors.
-  Communicate with contractors regarding project risks including safety in design and any requirements from approvals via bid documentation and to the General Manager Water Services at asset transfer.
-  Ensure OHS, environmental and quality policies and procedures are communicated, understood and followed.
-  Regularly inspect construction sites and report variances on OHS, environmental and quality compliance with approved management plans.
-  Correct all hazards raised from site inspections including safety and environmental hazards and quality non-conformances.
-  Ensure OHS and environmental incidents are investigated and closed out.
-  Positively participate in Aqwest processes, policies, working groups and other initiatives.
-  The duties contained in this position description are to be used as a guide for the position

Skills/Attributes and Experience (Selection Criteria)

-  Well-developed contract negotiation, contract management and project management skills.
-  Demonstrated conceptual and analytical skills.
-  Demonstrated advanced knowledge and experience of:
 - Delivering capital projects and new assets.
 - Quality project management principles and practices.
-  Substantial experience in and advanced knowledge of a Project Manager in providing engineering project management services, demonstrated as experience in and advanced knowledge of:
 - Managing all phases of asset creation projects.
 - Tendering and contract award processes.
 - Contract administration.
 - Supervising an engineering planning/design/investigation/construction team.
-  Advanced interpersonal, communication, negotiation and influencing skills.
-  Sound knowledge of asset management, integrated water management and wastewater principles.
-  Experience in analysis and presentation of results, through the provision of advice, briefings, presentations or written reports to support decision making.
-  Statutory requirements, regulation and national standards associated with planning, approval and development of water/wastewater related infrastructure.
-  Knowledge and experience in Occupational Health and Safety practices.
